No prospect of an early withdrawal of United States troops from Siberia is seen by Lieutenant Colonel David Barrows, intelligence officer of the

With over a million and a half eggs already in the "eyeing-troughs" at North Creek Station, and huge, gorgeously colored trout—"Rainbows" indeed—crowding into Metcalf Creek faster than the state's crack "spawn-takers" could "strip" and "fertilize" their eggs, the "run" is going great, telephoned Deputy Fish and Game Commissioner yesterday from Bear Valley. In his report to Superintendent of Fish Culture W. H. The act also provides that municipalities may not enforce local legislation conflicting with the provisions of the state law except in a few specified instances.

Colonel Harris Weinstock has gone down to defeat before half a dozen sea-bronzed fishermen.

Senators and assemblymen, backed by housewives and consumers' organ-izations, were unable to get through a bill to establish a state market system for relief from exorbitant prices planned on the "trusts" organized by Weinstock.

#### Finish Job Neatly.

But the fishermen, unversed in lobbying, without entertainment funds to wine and dine the men who do the voting, lacking possibly the ease and polish of the usual lobbyist, finished up their job with neatness and despatch. Today they are on the way back to their boats and nets.

All that remains is the signing by Governor Stephens of the Scott fish market bill. The measure, with an emergency clause to make it immediately effective, was passed late yes-terday without a dissenting vote in the assembly. It creates the office of state fisheries director and provides for state operated fish markets, effec-tively ending Weinstock's protested fish price fixing.

Chicago throws away less food, cuts her potato peelings most thinly, and consumes crusts of bread that make rosy cheeks.

This is indicated by a survey of garbage collection made by the Pittsburg Sanitary Commission, whose figures are used by the government experts in directing national campaigns for waste elimination.

Washington, the survey shows, is the most prodigal, since her municipal garbage pail each year contains 243 pounds of discarded food per inhabitant. Cleveland, with a discard of 166 pounds per person, is in the wasteful class. New York, despite it's title as the big spending town, discards only 157 pounds per person. Chicago dis-

cards but 80 pounds per person. Municipal garbage pails of some other big cities contain: Baltimore, 211 pounds per person; Cincinnati, pounds: Pittsburg, 286, and Ka City, 299.

# LOOKING YOUNG It's Easy—If You Know Dr. Edwards' Olive Tablets.

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box.

# A DOMESTIC DRAMA IN FOUR ACTS

If you enjoy a good, clean, wholesome play, in which smiles and tears

Mr. Frederick Harrington, who heads the company, is an actor of wide experience and recognized ability, and is equally at home in leading roles and character parts. In "The Tie That Binds" he appears as a warm-hearted old lawyer, who, by his skill and diplomacy, saves from disaster the matrimonial bark of a young couple which is fast drifting upon the rocks. Miss Betty Oliver, the leading woman, is a young actress of great personal charm and beauty, and in the part of the young wife has an opportunity for some fine emotional work, and wears some beautiful gowns. Mr. Marvin Moore, who plays her husband, is not only a splendid actor, but a strikingly handsome man.

# Municipal Houses For Workers Established In Park of Scotland

(By United Press)
DUNDEE, Scotland, April 17.—(By
Mail.)—Municipal houses for workers
have been established in public parks

The houses, which are of wood and are portable, were made in Kalamazoo, Mich., and were sold to the Dundee city council through a newspaper advertisement by the American Red Cross, who found them "white elephants." It had been intended to use them as auxiliary hospitals.

The houses are fifty feet by twenty and were bought by the city council when new factories caused an influx of workers who overcrowded Dundee.

Each house is divided into five separate houses of two rooms, the size of the miniature house being ten feet by twenty. Each worker is charged \$1.25 a week rent. All are rented.

# Jail Six Months At \$1.50 Per Day To Support Wife

Otviano Biaza is going to earn more money in the next six months than he has in the last year or two, and the money he earns is to go to the sup-port of his wife and baby. Judge Wil-liams made the arrangements this morning. Biaza was convicted of nonsupport of his family. Inquiry by the judge this morning developed the fact that Biaza is a loafer. In the last he has earned only about \$100, and that did not go to his wife. The judge concluded that Biaza would dodge responsibility if given probation, and the order was made so that there is no question as to the support of the family for the next six months. Biaza is to go to jail, and he is to be put to work by the county and the county is to pay Mrs. Biaza \$1.50 a day for Biaza's services.

### Mrs. Neb Holderman Makes Touching Appeal at Big Benefit Program

"I would not have had my husband anywhere else. I am proud of him, for he has proven to the world to be the man I knew he was, and I live in the thoughts of that happy day when he gets home—the day the Victory Loan is to hasten, for with this money our boys will be brought home, our wounded cared for and our hearts made light

with these words Mr. N. M. Holder-man last night closed her brief talk at the entertainment at Clune's in the inerest of the advertising fund of the Victory Loan committee. She made a touching appeal to her auditors for support of the loan and the application of what the success of the loan means to her and her little family made a deep impression. Her position is only one of many thousands—she is one of many thousands of wives and mothers to whom the Victory Loan means the early return of their loved ones.

The program was a pleasing success from the standpoint of the entertainment. The attendance by no means was what it should have been. The pro-

The program opened with "Pop" Endicott's minstrel band from Hunt- be met. ington Beach, with four blackface end men. Instrumental and vocal music and jokes by the end men provided a half hour's entertainment.

"They are not delinquent intentionally," said Burns, "but they did not understand the law. The ones I refer to are those who had no tax to pay but who should have made reports. Inquiry shows that these people used their exemptions to determine their net income, and when the figure so reached was under \$2000 or \$1000, depending upon whether the man was married or unmarried, no report was made. The exemption may reduce the taxable sum so that the man will have no tax to pay, but nevertheless he must file a report. These cases will be investigated unless reports are filed

Hotel Keepers Get Cash "I don't expect to lose any money when I go through the world's famous gambling hall," says he in a letter written just before he was to visit Monte Carlo, "for it takes all the bungalows and build them fast if the money there is to pay the hotel keepers." # **JUGO SLAVS**

### Santa Anan on Olympia Tells of Conditions at Spalato, Austria

It is only the presence of American naval forces at Spalato, Austria, that is keeping the Jugo Slavs and the Italians from fighting.

This is the declaration of Elwell Squires of Santa Ana, a musician aboard the U. S. S. Olympia. "We have been here in Spalato a little over a month," says a letter dated March 20, "and we have had only one liberty. We left Venice February 21 and arrived here the nert

day.
"The Jugo Slavs and Italians are having a lot of trouble and we are here trying to keep them from fighting. We have five or six destroyers that work in and out of here bringing us supplies and mail. They also work up and down

the coast. "If it were not for the Americans being here they would be fighting already. We have a patrol ashore day and night. The Italians want to take the land away from the Slavs and the Slavs are not going to let them have it. Italy wants control of the Adriatic, and she says England promised it to

her. So it is a mixed-up affair. "Anyway, we will have to stay here until the peace conference is over, and the contenders will have to go by the decision of the conference. I wish they would hurry up and get it over with so we could go home. I have had all I want of these foreign countries. The next time I go travelling it will be in the good old U. S. A. Why people come over here and spend their good money, I cannot see."

Vic says some grunion may show up Thursday night but the best sport will likely be Friday night.
Grunion time is always a popular

time, and with the warm days now prevailing here, thousands are planning for a beach trip one or all of the remaining three nights of the week. Some of the parties will dance and roast wieners and loaf early in the evening and rather a little later on they will fish, that is, providing the little demons of the deep hold true to

Probably the Balboa sandspit near the Newport Harbor entrance is the popular grunion grounds for Santa Ana people, for it's not only the nearest spot, but the sport is unusually good there, so night visitors to Newport and Balboa will be numerous. Other good grunion grounds, it is said, are at Serra, at the mouth of the Bolsa Chica below Huntington Peach, and about Seal Beach.
